Career Objective

- Software Development Engineer with a strong foundation in Data Structures and Algorithms and hands-on experience in MERN stack development. Proficient in Java and modern web technologies, with a focus on building scalable and user-centric applications. Seeking an entry-level role to apply technical skills and solve real-world problems.

Education

Galgotias University

2025 - 2027

Master of Computer Applications (MCA) — Current CGPA: 8.6

Atam Prakash Adarsh Mahavidyalaya (VBSPU)

Completed

Bachelor of Computer Applications (BCA) — Percentage: 84%

Adarsh Baudh Inter College (UP Board)

Completed

Intermediate — Percentage: 66%

St. John's School (ICSE)

Completed

High School — Percentage: 60%

Experience

Software Developer Intern

July, 2026 - Present

AKC Webtech Pvt. Ltd.

On-site

- Developing a full-stack Blog Management System using React, Node.js, Express.js, and PostgreSQL.
- Collaborating with senior developers to implement new features and resolve bugs.
- Working with databases, REST APIs, and version control (Git).

Projects

India Technology Guide(Blog App) - PERN Stack

- Developed a full-stack blogging platform during my software development internship using React.js, Node.js, Express.js, and PostgreSQL.
- Implemented JWT authentication, role-based access control, article creation/editing, publishing, categories, search, comments, likes, bookmarks, and recommended articles.
- Built a rich-text editor with image upload, resizing, alignment, and content management, along with a responsive and professional user interface.

URL Abuse Prevention System - MongoDB, Express.js, React.js, Node.js, JWT, Axios, Google Safe Browsing API

- Developed a full-stack MERN application to analyze URLs and identify potentially malicious or unsafe websites.
- Integrated the Google Safe Browsing API to detect malware and phishing threats in real time.
- Implemented a custom risk-scoring algorithm that evaluates URLs based on security indicators such as HTTPS usage, URL length, IP-based URLs, special characters, and suspicious patterns.

Technical Skills

Programming & Tools: Java, JavaScript, HTML, CSS(Bootstrap, Tailwind), React.js, Node.js, Express.js, MongoDB, MySQL, Git/GitHub, DSA.

Soft Skills: Communication, Problem-Solving, Teamwork, Adaptability, Critical Thinking

Certifications

- Java Full Stack Virtual Internship - AICTE — EduSkills Foundation(2026)
- Microsoft Excel Certification – Coursera (2025)
- Machine Learning Certification – AWS Academy (2026)

Achievement

- Solved 100+ DSA Problems on LeetCode.
